ISME-XIII

13th International Symposium on Mineral Exploration

Toward Sustainable Society with Natural Resources

- Frontiers in Earth Resources Technologies and Environmental Conservation -

DEADLINES

Camera Ready Paper Due is extended to July 31, 2014

[The format of the camera ready paper \(ver.2\) can be downloaded here.](#)

The format of the camera ready paper is changed as follows: The length of the paper should be no longer than 4 pages (figures, tables included). The papers are positioned as extended abstracts.

All contributions will be given by oral presentations. The time allocated for a general presentation is 20 minutes (including 5 minutes for discussion).

The outstanding presentation awards will be given to several young researchers who will present an excellent presentation.

Registration Form

[The registration form can be downloaded here.](#)

Registration Fee

	Before July 31	After July 31
General ¹	250 US\$	300 US\$
Student ²	100 US\$	100 US\$

~~¹Registration fee includes proceedings, two-days lunch, and a banquet.~~

~~²Registration fee includes proceedings and two-days lunch.~~

¹Registration fee includes proceedings but excludes foods.

²Registration fee includes proceedings but excludes foods.

For Japanese participants, registration fee can be paid by bank transfer. Please refer to the following page for more information.

ISME-XIII

13th International Symposium on Mineral Exploration

Toward Sustainable Society with Natural Resources

- Frontiers in Earth Resources Technologies and Environmental Conservation

"The purpose of ISME symposia is to bring together scientists actively working on some diverse fields in order to foster the exchanges of ideas related to the methods or resource exploration."

after Singer, D. A. and Kouda, R. (1993) Nonrenewable Resources, v. 2, no. 2, pp. 65-66.

ISME (International Symposium on Mineral Exploration) is an international activity of the Division of Exploration Technology (DETEC) in Mining and Materials Processing Institute of Japan (MMIJ). Symposia have been held ten times in every two years since 1990 in Japan, Austraria, and USA, and jointly with the annual conference of IAMG (International Association for Mathematical Geology) and the IGC (International Geological Congress) as one session in them. Proceedings have been published in several special issues in the journals of IAMG (Nonrenewable Resources and Natural Research).

International Organizing Committee

Noriyoshi TSUCHIYA (Tohoku Univ., Chair)

Mai Trong Nhuan (VNU, Co-chair)

Katsuaki KOIKE (Kyoto Univ., Program committee)

Ryoichi KOUDA (Geological Survey of Japan, Award committee)

Toshiaki UEKI (Ocean High Technology Institute Inc., Financial committee)

Tetsuro YONEDA (Hokkaido Univ.)

Toshihide ITO (Kansai Univ.)

Takafumi TSUJIMOTO (JOGMEC)

Hideaki MIYAMOTO (Tokyo Univ.)

Tatsu KUWATANI (Tohoku Univ.)

Akihisa KIZAKI (Akita Univ.)

Youqing CHEN (Kyoto Univ.)

Nguyen Van VUONG (VNU University of Science)

Hisafumi ASAUE (Kumamoto Univ.)

Koki KASHIWAYA (Kyoto Univ.)

Penda ZHAO (China Univ. Geosci.)

Jianping CHEN (China Univ. Geosci.)

Chunxue LIU (Yunnan Uni. Finance and Economics)

Sudarto NOTOSISWOYO (ITB)
Mohamad Nur HERIAWAN (ITB)
Budi SULISTIANTO (ITB)
Budi SULISTIJO (ITB)
Jorge YAMAMOTO (Sao Paulo Univ.)
Donald SINGER (USGS)
Roussos DIMITRAKOPOULOS (McGill Univ)
Qiuming CHENG (York Univ.)
Margaretha SCOTT (Queensland Univ.)
John CARRANZA (James Cook Univ.)
Pekka A. NURMI (Geological Survey of Finland)
Richard SINDING-LARSEN (Norwegian Univ. Science and Technology)

Local Organizing Committee

Nguyen Van Vuong (VNU)
Nguyen Thi Thu Ha (VNU)
Hoang Minh Thao (VNU)

Themes

- Mining/ Petroleum Geology and Economic Geology
- Applied Mineralogy
- Geostatistics, Geoinformatics, and Mathematical Geology
- Geographical Information System
- Geophysics and Geochemistry
- Remote Sensing
- Resource Economics
- Mining and Petroleum Engineering
- Environmental Geology
- Hydrogeology, Water Resources, and Water Conservation
- Marine Resources
- Natural Gas and Methane Hydrate
- Geothermal
- Assessment Technologies and Risk Analysis
- Exploration Strategies
- Urban Mining and Recycling
- Extraterrestrial Resource Exploration

The Schedule of September 22-24, 2014 (Tentative)

Le Van Thiem Hall, VNU University of Science, Hanoi, Vietnam
<http://vnu.edu.vn>

September, 2014

- 22: Technical sessions with Keynote Lectures & Banquet
- 23: Technical sessions with Keynote Lectures
- 24: One-day technical tour to geological sites (Extra charge)
- 25: The short workshop for ISME

[ISME Scientific Programme](#)

[\(pdf version\)](#)

The short workshop for ISME

[Syllabus \(draft version\) can be downloaded here.](#)

Field Trip

We will visit Mo Ngot kaolin deposit (Phu Tho province, about 100 km far from Hanoi) then visit traditional Bat Trang ceramic village (about 20 km far from center of Hanoi).

About VNU

Vietnam National University, Hanoi (VNU) is the first modern university ever established in the country and one of the two national universities in Vietnam. It is located in Hanoi, the capital city of Vietnam. It takes about 45 minutes by taxi from airport to VNU. Please see the web-site of VNU (<http://vnu.edu.vn/>) for more details.

Hanoi City

Hanoi is located in the Red River Delta, in the center of North Vietnam. Hanoi means "the hinterland between the rivers" (Ha: river, Noi: interior). Hanoi's territory is washed by the Red River (Song Hong River) and its tributaries. The portion of the Red River embracing Hanoi is approximately 40km long.

Hanoi is situated in a tropical monsoon zone with two main seasons. During the dry season, which lasts from October to April, it is cold and there is very little rainfall, except from January to March, when the weather is still cold but there is some light rain. The wet season, from May to September, is hot with heavy rains and storms. The average annual temperature is 23.2°C and the average annual rainfall is 1,800mm.
