Call for Papers

We are delighted to announce that the International Symposium on Earth Science and Technology 2020 will be held on November 26 – 27, 2020 in Kyushu University, Fukuoka, Japan. This is an international symposium, presenting the most current sciences and technologies from around the world, with a special focus on scientific, technical and environmental issues that challenge the earth resources developments. Topics of major interest are listed below.

- Economic Geology and Geological Engineering
- Geophysics, GIS, and Remote Sensing
- Geomechanics and Rock Mechanics
- Mechanized, Automation, and Intelligent Mining
- Development and Production of Mineral Resources and Energy Resources
- Numerical Simulation of Resources Production
- Mineral Processing, Waste Management, and Recycling
- Environmental Geology and Rehabilitation
- Underground Water Resources
- Sustainability of Resources and Environment
- Global Environmental Protection Technology
- International Cooperation in Education and Research

We sincerely invite you and your colleagues to submit paper proposals to be considered for the symposium. Young researchers are especially welcomed, since the best paper/presentation/poster awards are established to encourage the young researchers contributing to the area of earth resources and environment in this symposium.

The deadline for submitting abstracts is **August 14, 2020**. Please submit your paper proposal including **a paper title, authors, an e-mail address of a corresponding author, and an abstract (less than 200 words)** electronically to the E-mail of the symposium secretariat below.

Thank you in advance for your contribution to the success of this symposium. We sincerely look forward to seeing you in Fukuoka, Japan!
